ALEXANDER is one of the world's most prestigious and renowned vessels, offering luxurious cruising to the discerning elite. Extensively refitted in 1985 and again in 1998, ALEXANDER's elegant design provides comfortable and well-appointed accommodation for up to 60 guests. With her high standard of service, combined with excellent amenities and vast deck spaces, she lends herself extremely well to top level private or corporate chartering.

Whilst the vessel has guest accommodation for up to 84 persons, due to the configuration of some of the suites onboard the yacht lends itself best for groups of up to a maximum of 60 persons overnight.

ALEXANDER represents a unique opportunity for the world's top charter clients to entertain and cruise in splendid style and with the ability to extend the guest list well beyond the usual 12 berth capacity.
