Onassis built her as his dream ship and that's what she became, a ship so exquisitely stepped in history and romance that she casts a spell wherever she goes. Calls, Kennedy and Peron all fell for Onassis on board. Churchill came back eight times, perhaps to soak up the wisdom in Air's Bar, named after Aristotle himself. The list of those who have fallen in love with – and aboard – Christina O reads like history of twentieth century. Her fabulous re-fit sees her ready for spectacular events in the twenty-first.
