Cruising Area:	Summer – Mediterranean Winter – Caribbean

One of the most spacious yachts on the charter market, ESMERALDA is ideal for either large, private groups of 22 guests requiring 11 en suite staterooms, or for smaller parties who wish to enjoy an unequalled amount of space. A feature that is quite unique is that all 11 staterooms are on the main deck or above and each have large windows affording exceptional levels of natural lighting.

The main saloon has a variety of seating areas and also a full bar. A further bar/lounge is located on the upper deck and this opens onto a superb dining area, perfect for lunchtime. For more formal dining there is a separate dining area on the main deck.

The enormous deck areas on all four levels allow a greta variety for guests' use. Perfect for having spectacular cocktail parties or for having large numbers lounging on the sun deck and perhaps using the newly fitted jacuzzi.
