| Cruising Area: | Summer – Mediterranean Winter – Caribbean |

RENALO was delivered in 1997 by the Codecasa Shipyard, Italy. She offers first class facilities for charterers and their guests.

At 160ft/48.70m in length she is very well appointed for charter offering an abundance of large exterior recreational areas including a jacuzzi dip pool on the sun deck, 3 alfresco dining areas and 2 bars.

An integral swimming platform allows for easy access to the water and the yacht's tenders. A practical stern garage provides safe storage for all the yacht's comprehensive watersports equipment whilst underway.

RENALO's interior is a masterful combination of contrasting wood panelling using mahogany and limed oak. The more formal areas are spacious, comfortable and very attractively laid out for dining, reading, socialising or simply relaxing.

There is accommodation for 10 guests in 6 cabins, each with full ensuite facilities (4 doubles and 2 twins).
