Low Season	140.000 USD
High Season	175.000 USD

It is rare indeed for those of us who have been in the yachting industry for many years to experience the thrill of boarding LIBERTY for the first time. A number of adjectives spring to mind and yet none really seem adequate to describe this truly incredible vessel. Awesome in her rig, superb in her finishing detail, astonishing in the amount of space created for the number of different day areas, engineering of the highest standard, exemplary performance under both power and sail. The experienced owner, continuing on the excellent reputation of his previous Perini, looks forward to welcoming the most discerning charterer with absolute confidence that this magnificent yacht and her professional crew will provide, quite simply, the experience of a lifetime.
